

## A unique experience

An elite pairing with limitless image options and a few especially dedicated works the SA-08 is the desirable choice of the interior designer and those that require a bit more power. Fill your home with sound, not boxes. Maintain a high level of design. Improve the way you experience music in your home. From £1795.00, the SA-08 audio system delivers crystal clear, high quality sound through a pair of 50 x 100cm canvases.

*'I met SoundArt at a Trade Fair and was absolutely blown away! It's not often that someone comes up with such an innovative product that leaves the rest in their field standing. Not only is it fabulous quality but the very fact that you can personalise your speakers so that they fit with the look and feel of your room, is genius! It's a joy to look at and listen to. Thank you!'*

— Lucy Moore, Client,  
Couture Digital, Installation

## Reviews

*'The system developed by SoundArt allows home owners to forget about unsightly speakers and replace them with works of Art'*  
— Financial Times

*'The breakthrough design soothes the eye of the most sensitive aesthete while sating the demands of all aural snobs'*  
— Vogue September 2006

*Bespoke because it's not only your suit that should be made to measure'*  
— Arena December 2006
